

Thirst *for* Science

where science professionals drink with science enthusiasts

WHEN

jan 17th
6:30-8:00pm

toast to begin at 7:00
questions to begin at 7:30

WHERE

M.I.A. beer
company

10400 nw 33rd street
suite 150; doral, fl 33172

open to the public!

FEATURING

dr. andrea raymond
**cells talk with bubbles,
and viruses are hitchhiking**

dr. raymond is an associate professor in immunology and nano-medicine at florida international university. she will discuss how our cells use bubbles (vesicles) to communicate with each other, how viruses like HIV might use these bubbles to spread through the body, and how we might hijack the bubble messenger system to turn the tables on viral hitchhikers! more on dr. raymond at
